

Avery Weigh-Tronix

ProDec The ProDec floor scale was designed as a low profile, economical scale for use in many environments. The stainless steel version can take the high pressure wash downs and highly corrosive environments in many industrial settings. Capacities from 2,000 to 20,000 lbs and sizes from 30" x 30" to 96" x 72" available.

The ProDec comes with safety tread deck, This non-slip pattern reduces the risk of work place injuries. This tread is on all deck and ramp surfaces. It also has four way ramp positioning to speed up work flow in any direction.

Pallet Jack Scale is designed and built for strength, accuracy, and durability. The tubular steel construction and load cell configuration makes this scale able to withstand heavy end loading and years of heavy, hard industrial use. It fits all small and large pallets, and all standard pallet jack trucks. It can be easily moved to different locations, and the leveling foot assembly guarantees accuracy and repeatability. Select the indicator of your choice for a calibrated system that is ready for use.
